Shareholder Chairman of the Board

Professional Profile

When you work with Gary, you get the benefit of 40 years of leadership in public accounting. It's true, in addition to leading the strategic direction of the firm and being recognized as national leader within the accounting industry, our President continues to provide auditing, accounting and consulting services directly to clients today. His personal and entrepreneurial approach has helped make Perkins & Co a trusted advisor to all of our clients.

A founding shareholder (1986), Gary was Director of Assurance for 19 years before stepping up as President in 2005. He has served a wide variety of closely held, privately owned businesses, from single-owner, to multi-generational family owned companies to multi-national manufacturing giants. After all these years, Gary still gets fired-up from advising business owners on strategic next steps, transition and succession planning and guiding businesses along the business lifecycle.

Another driving passion for Gary is promoting and helping to drive our region's growth and strength. Gary is heavily involved in the business community, serving on boards focused on boosting our local economy, attracting new business to the area and planning for long-term improvement and success. He brings the keen objective eye of an accountant, with the astute instinct he's gained from decades of building a successful business and helping our clients do the same.

To keep it all in balance, Gary enjoys cooking, wine collecting, international travel with his wife Sue (married 37 years!), fly fishing, and working in the garden, plus he plays a mean game of golf—single-digit handicap! What can we learn from Gary? Do what you love and give it your all.

Education

Bachelor of Business Administration in Accounting, with honors, University of Oregon, Eugene, Oregon.
